## BOMBARDMENT OF CARDENAS.

Awful Havoc Created in Revenge of

Off Mole St. Nicholas Did Not  
Materialize — Cubans in Distress.[A. P. NIGHT REPORT. COPYRIGHT, 1893.]  
KEY WEST (Fla.) May 22, 6 p.m.—The tranquility of a tropical Sunday has been undisturbed by definite information from any quarter. A few naval uniforms on the streets are the only signs of the proximity of this magical town to the theater of war. There are only one or two ships in the harbor, and they are coaling with all haste to get away to join their fellows in an action which all are convinced is only a matter of days, perhaps hours.

Speculation is still concentrated on the whereabouts of Admiral Cervera's squadron, the general opinion favoring some point on the southern coast of Cuba. As both sides of the island are now patrolled by United States warships, the naval authorities will not admit the possibility of Cervera's escape without the most desperate conflict in the history of naval warfare.

Reports from Admiral Sampson's squadron say that all is quiet off the northern coast of Cuba. Nothing from Commodore Schley is expected before Monday or Tuesday. A rumor reached here that four American warships, while bombarding Santiago de Cuba, had been driven off by the Spanish fleet, but the story is generally discredited.

## BOMBARDMENT OF CARDENAS.

Señor Ernesto Castro, a well-known lawyer and president of the revolutionary Junta of Cardenas, arrived here today on the United States gunboat Annapolis. During the recent bombardment at Cardenas, Señor Castro was in the bay in a small boat, trying to reach the American vessels and get transportation to the United States on an important mission. He was compelled to return to the shore, where he saw and heard of the results of the bombardment.

LONDON, May 23.—A dispatch from the Daily Mail from Hongkong says:

"Spaniards in Hongkong and at Manila openly boast that a fleet of warships is on the way to the Philippines. The bishops have issued pastorals to the effect that Spain and God are preparing to cut out these social excrescences from America. The pastorals urge the people to give no quarter, and they ascribe Deere's humanity in refusing to bombard Manila as due to fear. At the same time, the money is being spent in bribing the inferior leaders among the insurgents."

## PROJECTILES FOR SAMPSON.

[ASSOCIATED PRESS NIGHT REPORT.]  
READING (Pa.), May 22.—On receipt of a telegram from Washington, the Carpenter Steel Works late tonight sent 150 13-inch projectiles destined for Sampson's fleet. These weigh 1200 pounds, and each will pass through anything Spanish afloat. Over 800 projectiles of somewhat smaller size are on hand, and they will go tomorrow to San Francisco for Admiral Dewey's abortive raid on San Juan.

"The high speed of the Spanish cruisers so far has not been turned to any account, and although its arrival in Santiago de Cuba may have some moral weight in assuring the Cuban garrisons that they are not abandoned, no naval objects seem to have been attained.

The United States commanders now know where the enemy is, and have had time to concentrate a superior force and to cover their weak points."

Discussing the problem of a blockade of Admiral Cervera at Santiago de Cuba, or an attempt to force him to give battle, the Times article says:

"The United States commander possesses ample force, but night and the speed of the Spanish cruisers will give them chances to escape. The result will be watched with much interest.

The defenses of Santiago are probably

## STARTED FOR MANILA

THE CHARLESTON OFF ON HER LONG VOYAGE.

Troops at the Presidio Gave the Gallant Vessel a Rousing Send-off.

SOLDIERS WILL SOON FOLLOW.

CITY OF PEKING TO GET UNDER WAY TUESDAY.

Gen. Otis Issues an Order for Men Detailed for the Service to Get Aboard—Sunday in the Camps.

[ASSOCIATED PRESS DAY REPORT.]

SAN FRANCISCO, May 22.—The Charleston is well on her way to Manila. The big cruiser passed through the Golden Gate at 8:30 o'clock this morning, after having been anchored in the stream all night. She adjusted her compasses at an early hour, and then passed up the bay, through the Ragoon Straits, and past the docks on the northern frontage of the city. Every steam vessel in the harbor blew au revoir to Capt. Glass and his crew. None of the forts in the harbor saluted the vessel, but the demonstration made by the 6000 soldiers gathered at the Presidio was tremendous. When the vessel was sighted coming down the bay, the soldiers gathered on the beach to bid her bon voyage.

They lined the beach for a mile, and cheer upon cheer rang out from the men who are to soon follow the Charleston to the scene of Admiral Dewey's triumph. The Charleston's big siren answered the boys on the beach time and again, and the whistling was heard from one end of the city to the other. Never has a war vessel leaving this harbor received such a send-off as was given the Charleston, which was the first of the American fleet to be built on the Pacific Coast. She was launched from the Union Iron Works in this city ten years ago, and was one of the "nest eggs" of the present American navy.

TROOPS AT SAN FRANCISCO.

Presidio and Camp Richmond Scenes of Great Animation.

[ASSOCIATED PRESS NIGHT REPORT.]

SAN FRANCISCO, May 22.—The Presidio was the center of attraction today. The published report that the First California Regiment, United States Volunteers, would embark on the Peking tomorrow drew thousands of people to their camp to say good-by.

The soldiers had just finished breakfast this morning when some keen-eyed warrior sighted the cruiser Charleston coming from behind Angel Island and making her way out through the Golden Gate. In an instant the whole camp was in an uproar. Every one except the guard raced toward the beach, and a combined yell from 7000 throats went across the water to the men on the gray cruiser who were on their way to join Admiral Dewey. Flags were waved, and the cheering continued until the ship was out of sight. The Charleston responded to the greeting by blowing her steam siren and plunged into the Pacific and out of sight at a fifteen-knot gait.

Then the soldiers went back to camp and made ready for inspection and church. Services were held by the different regiments on the sloping hillside at one side of the camp. The men stood at "place rest," and listened to the patriotic utterances of their respective chaplains.

At the conclusion of the religious service, the various regiments marched in review, each headed by its band. The reviewing officer, Brig.-Gen. Otis, was highly pleased at the soldierly bearing of the troops and complimented them upon their proficiency in the evolutions and tactics.

During the balance of the day the camp of the First Regiment was a scene of activity. The regiment has been ordered break camp and march to the steamer Peking at 7 o'clock tomorrow morning, and officers and men were busily engaged in making final preparations.

During the day the last of the regimental supplies were loaded on the ship, and in the morning the tents will go down together and will be carted to the transport vessel. This morning a supply of late model Springfield rifles arrived, and the men of the First Regiment were provided with new weapons in place of their old-time muskets.

The Utah troops arrived at noon and marched out to Fort Richmond. They were cordially greeted by the tireless workers of the Red Cross Society, and the Utah boys marched to their camp loaded with flowers and good things to eat.

In spite of the crowds at the Presidio, Fort Richmond was not neglected. Thousands of people visited the ground where the Colorado, Nebraska, Kansas and Wyoming soldiers are in camp, and vied with each other in expressions of hospitality. From a sanitary point of view, Fort Richmond is preferable to the Presidio camp grounds. Although quite a number of men responded to sick call this morning, there was nothing more serious than colds to be treated.

All the soldiers are impatient to start for Manila, and their ardor does not seem to be abated by the hard work of camp life. Drilling at both camps is almost incessant, and a more willing lot of soldiers was never seen.

The City of Peking may get away by tomorrow night, but will probably not start before Tuesday. The coast-defense vessel Monterey is now lying in the stream, and will be ready to start as soon as she receives a supply of coal. By carrying a deck load of coal the Monterey can reach Honolulu, but from that point to Manila she will have to be accompanied by a collier or else taken in tow by one of the transport steamers. No steamers City of Sydney and Australia may possibly be ready to sail on Tuesday, and there is some talk of having them go with the Peking, but it is probable that the original plan will be adhered to, and that each ship will sail as soon as

## OUR SOLDIER BOYS IN NEED OF FUNDS.

## Red Cross Society Calls on Southern California to Help Them.

[BY DIRECT WIRE TO THE TIMES.]

SAN FRANCISCO, May 22.—[Exclusive Dispatch.]—Twelve members of battery D, Heavy Artillery, from Los Angeles, are to embark on the City of Peking for Manila on Tuesday next. The order was made today and found the men in some respects unprepared for the long ocean voyage and expected hardships in the Philippines. Except for \$50 distributed among them by the officers of the Red Cross society, the men are without funds.

A message was sent to Col. H. G. Otis, urging a subscription of \$1000 by the people of Southern California for distribution among the men. Col. Otis wired for the Red Cross Society to draw on him for \$200, and stated that he would at once place the matter before the people of Los Angeles. Of the \$200, \$150 was distributed among the men of companies C, A and F of the Seventh Regiment from Los Angeles, and \$50 among the battery boys who are to sail Tuesday.

The officers of the Red Cross Society will hold a meeting tomorrow morning, when a favorable response to the appeal for funds is expected from the south. Maj. Hooper of the Occidental Hotel has offered to advance funds and trust to the patriotism of Los Angeles to make the amount good.

J. McColgan, who is connected with the Oakland track, has presented Col. W. G. Schreiber of the Seventh Regiment a thoroughbred horse by Amigo. The Colonel will take the horse to the Philippines.

to duty at Manila and will sail with the Peking.

THE ENLISTED MEN.

[ASSOCIATED PRESS DAY REPORT.]

SAN FRANCISCO, May 22.—Today's arrival of troops include two battalions of the First Regiment of Idaho, United States Volunteers. They were received by the ladies of the Red Cross Society. Many of the men had no uniforms. Some of them were poorly dressed, and all of them looked well. The fact is that but two companies of the Eighth are fully equipped, and only about 20 men have Springfield rifles, the others being unarmed. Still, the signs of the outward visible signs of poverty, they have plenty of tents, a good supply of blankets and enough to eat. Before marching to Camp Richmond the men were presented with fruit and flowers galore.

Tonight there are 12,436 enlisted soldiers in this city. As the first embarkation takes place tomorrow morning, it is not likely that the number of soldiers in the city will exceed the present total. The Utah men who arrived at noon presented almost a jaunty appearance as they marched to their camp grounds.

There were two batteries, A and B, under command of Capt. R. W. Young, ex-lieutenant in the regular army, and Capt. Fagaut. The members of these two batteries, the only light artillery ordered to form part of the Philippine army of occupation, are a particularly fine lot of men.

They are well equipped, largely out of their own pockets. In their ranks are representatives of Cornell in an inter-collegiate debate with the University of Pennsylvania, two practicing physicians and the prominent lawyers. The companies brought with them eight 2.2-inch rifled field guns of the latest model, all necessary tents and other camp outfit.

The Pennsylvania volunteers are expected to arrive here tomorrow morning.

SAN FRANCISCO, May 22.—Major Otis has issued the following general order:

"The First California and the Second Oregon United States volunteers, and one battalion of the Fourteenth United States Infantry and a detachment of California heavy artillery, will constitute an officer and fifty men, will constitute a company and will be ordered about to depart from this port, and is placed under the command of Brig.-Gen. Thomas M. Anderson, United States Volunteers. The vessels designated to transport this command are the City of Peking, the City of Sydney and Australia.

The First California Regiment will ship on the Peking tomorrow morning, the 23d inst., and will report at the Pacific Mail steamer's wharf at 8 a.m. The headquarters of two battalions of the Ohio Regiment will ship on the steamer Australia on Tuesday morning, the 24th inst., reporting at pier No. 7, Oceanic Steamship Company's dock, at 8 a.m. The headquarters and a battalion of the Fourteenth United States Infantry and a detachment of the Second Oregon Regiment and a detachment of California Heavy Artillery will report at the Pacific Mail Company's wharf for shipment on the City of Sydney at 8 o'clock on the 24th inst.

Orders affecting the medical attendance of the troops, also supply departments and concerning the freighting of vessels have been or will be issued in due season, and executed, so that the vessels may immediately depart as soon as troops are placed on board."

GEN. ANDERSON ARRIVES.

SAN FRANCISCO, May 22.—Brig.-Gen. Anderson arrived today from Portland, Ore., and tomorrow will go to the steamer Australia, which is to be loaded with supplies and is to go for the reception of troops.

He will have charge of the advance brigade of the Manila expedition. He is accompanied by Lieut. Clark of the Fourteenth Infantry, who is his aid de camp.

Major R. E. Jones, who came from Omaha, will be the quartermaster of the expedition.

Major E. R. Thompson of the Signal Corps, who arrived from Tampa, will be the chief signal officer.

## HOT TIME AT TAMPA.

## MANY SOLDIERS SUCUMMING TO THE EXTREME HEAT.

New York and New England Volunteers Getting a Foretaste of Cuban Climate.

## PRESS CENSORSHIP STILL ON.

## IMMENSE QUANTITIES OF ARMY SUPPLIES RECEIVED.

All Indications Point to an Early Advance on Cuba—Reports from the Various Southern Military Camps.

[ASSOCIATED PRESS NIGHT REPORT.]

TAMPA (Fla.), May 22.—[Exclusive Dispatch.]—Intense heat and a continuation of the conditions that have prevailed for a week sums the situation at Tampa tonight. The volunteer troops at Lakeland are suffering from the heat severely. They come from New York and New England and are not used to the tropical heat of Florida. Upward of a hundred prostrations from heat occurred in the camp there yesterday and today. None of the cases are serious, however, and all the men will recover.

A detailed report of the arrival of State regiments is tabooed. State troops, to a large number, have arrived at various Florida camps, however, within the past forty-eight hours. New York, Massachusetts, Wisconsin and Ohio are well-represented. The United States camps are still located as they were.

Gen. O. H. Howard and Maj. D. W. Whipple, the evangelists, who have been conducting meetings in the military camps here, will leave tomorrow for Chickamauga. They were heard for the last time here at the evening services tonight in the tabernacle near the Tampa Heights camps.

The immense quantities of supplies that have been sent here indicate that the army is all ready to move. The railroads are almost completely blocked with freight cars and the express company is three weeks behind with its deliveries.

The consensus of opinion seems to be that the army will move about June 1, perhaps a few days earlier.

AT CHICKAMAUGA.

A Quiet Day in Camp Thomas—Few New Arrivals.

[ASSOCIATED PRESS NIGHT REPORT.]

CHICKAMAUGA NATIONAL PARK (Ga.), May 22.—This has been a quiet day at Camp Thomas. The Second Nebraska Regiment, which reached Chattanooga yesterday afternoon, arrived this morning, and was assigned to the camp ground selected for the First Division of the Third Corps, and the men have been busy getting into their tents during the day. Only two battalions arrived during the day. The Second Battalion of the Second Nebraska, which had become separated from its regiment at St. Louis, reached here at 8 o'clock. The belated battalion was commanded by Maj. W. C. Mace.

The First Battalion of the Fifteenth Indiana Infantry arrived in Chattanooga at 8 o'clock, accompanied by the regimental band of twenty-four pieces. The battalion spent the day on Lookout Mountain, and reached the park at 3:30 o'clock, sleeping under the stars on the little hill during the night.

As a result of the few arrivals, the railroad yards, which have been enormously congested with loaded and empty cars for nearly a week, were partially cleared, and room made for the troops that will arrive tomorrow.

Five cars of provisions arrived today, and were stored in the large warehouse now under construction in the park grounds near the depot of the railroads and companies. Fifty-one of the latest and most improved ambulances, built with special view to adaptability in a hot climate, arrived from South Bend, Ind., today, and will be distributed to the First Corps.

The First force of men under the direction of Gen. Boynton was at work all day preparing for the engines and pumps to be used in pumping water from the Chickamauga River to the various camps. It has been definitely decided to erect improvised waterworks and to have them let go to the Chocopee Falls, where they will be used to supply the camp.

There is a precautionary measure.

Gen. J. C. S. Bates, recently ordered to Mobile, left tonight at 8:30 o'clock to take command of a brigade at that point.

Maryland Volunteers.

BALTIMORE (Md.), May 22.—Orders were received at Camp Willow today for the First Regiment, one of which the two battalions of infantry to complete Maryland's quota of volunteers were formed, to proceed to Fortress Monroe. The command will leave on Wednesday. One hundred and eight additional members of the Naval Reserve have been mustered into government service and are quartered on the ship Dale, waiting the formation of the Chesapeake Bay mosquito fleet, or other assignment from the Navy Department.

Fifteenth Indiana.

INDIANAPOLIS (Ind.), May 22.—The work of completing the Third Army Corps began yesterday at Camp Mount today in four sections for the rendezvous at Camp Dunloring, Va. The regiment is commanded by Col. Barnett. This was the last regiment to leave Camp Mount.

Dakota Rough Riders.

DEADWOOD (S. D.), May 22.—The troops of rough riders at Fort Meade have orders to start for Chickamauga tomorrow. Fully 1000 people from northern hill cities visited the fort today to say farewell to their friends and relatives.

PATRIOTIC WOMEN.

They Won't Buy Any More Goods Made in France.

[ASSOCIATED PRESS NIGHT REPORT.]

ST. JOSEPH (Mo.), May 22.—Seventy-five women, all of prominent families here, met this afternoon at the Country Club, where the freely-voted hostility of France to the United States in the Spanish-American trouble was discussed.

The members of the First Missouri Regiment, injured in yesterday's conflict, are doing well and will be out in a few days.

Gen. E. B. Williston, from the United States Third Artillery, who has been assigned to the artillery brigade here, arrived today, and reported to Gen. Brooke. Gen. Williston stated that he found his brigade about complete and equipped with the very important exceptions that they have neither guns, horses nor ammunition.

A report of the equipment arrived yesterday, and Gen. Williston hopes to get more supplies by the middle of the week.

Gen. Williston and staff did not visit the park today. They will inspect the Second and Third divisions tomorrow morning to complete the inspection of all organizations perfected up to Wednesday evening, when they go to Tampa.

TROOP K of the Third United States Cavalry, one of the three in

dependent volunteer regiments, consisting of forty-five men, arrived at Chattanooga on Friday night. The troop is in command of Capt. Jacob H. Oliver and has been organized in Nebraska and Dakota. The troop is a part of Col. Grigsby's rough riders. The troop has no horses, but was otherwise equipped.

The 144 officers and men, from Sioux Falls, S. D., arrived this afternoon. Col. Grigsby himself, accompanied these troops and Maj. W. R. Stewart, was next in command. They will march west tomorrow. The troops will be followed tomorrow by two trains carrying 200 horses. These troops are all cowboys.

AT FORT M'PHERSON.

Two Thousand Recruits Arrived.

[ASSOCIATED PRESS NIGHT REPORT.]

ATLANTA (Ga.), May 22.—About 2000 recruits have arrived at Fort McPherson since that post was made the centralization point for that branch of the army. Every recruiting station in the country, from Maine to California, has sent some men, and they are still arriving at the rate of 200 a day. It was not intended to send any of the men away until they were uniformed and equipped, but need of men for the Philippines has brought about the necessity of getting more men in the regular army regiments in the West.

Col. Cook, the commandant, yesterday lined up the recruits, and pointed and said to them: "Get to the Philippines. Nine hundred responded almost immediately, but only 600 are wanted to make out the third battalion of two regiments. It is likely these men will go to New Orleans to join the Eleventh or Twenty-third regiments of the regular army, before these regiments, which have been assigned to go with Gen. Merritt, start for San Francisco.

The Spanish prisoners who are to be exchanged for Correspondents Thrall and Jones will be sent in Morelos to join the regiment of Cuban volunteers, organized in the extremity of Florida.

REPORTING RECORDS  
DOINGS ON THE DIAMOND

## REMARKABLE BASEBALL GAME PLAYED AT FRESNO.

The Score for Fourteen Innings, and Oaklanders Get Mad and Leave the Field—Doyle Sings Deveaux at Sacramento.

## [ASSOCIATED PRESS NIGHT REPORT.]

FRESNO, May 22.—One of the best and most exciting games of baseball ever played on the home diamond, and probably on any other diamond, was played here this afternoon between the Fresno and Oaklands. After fourteen innings had been played, neither side being able to gain lead, Oakland took exception to a ruling of the umpire and left the diamond, the score standing 3 to 3. Fresno was given the decision by a score of 9 to 6.

In the last half of the fourteenth inning Fresno had two men on bases with none out and Held at bat. He bunted a ball a few feet in front of him and was thrown out at first, while the two men on bases advanced to second and third.

This made Fresno almost certain of scoring the winning run, but Oakland claimed that Held's ball was dead. The umpire ruled otherwise, whereupon Tip O'Neill called his men from the field. Score:

Fresno, 9; base hits, 7; errors, 1. Oakland, 6; base hits, 9; errors, 2. Deveaux, 3; base hits, 1; errors, 1. Umpire—Ferguson.

## SLUGGING AT SACRAMENTO.

[ASSOCIATED PRESS NIGHT REPORT.] SACRAMENTO, May 22.—The Gil Edges won from Santa Cruz in the best game of the season today by a score of 5 to 1. The feature of the game was the magnificent work of Harvey in the first inning, who, with the bases full of Santa Cruzans and nobody out, settled down and struck out the next three up. A disgraceful score was enacted in the ninth inning when Doyle, who was caught off third base, Deveaux, slugged the latter in the face. For a few minutes a riot was imminent, but order was finally restored. Score: Gil Edges, 5; base hits, 5; errors, 2. Santa Cruz, 1; base hits, 2; errors, 2. Batteries—Harvey and Stanley; Ed Daubendis and Charles Daubendis. Umpire—Griffin.

## ATTENDANCE.

## SAN JOSE PROTESTS.

[ASSOCIATED PRESS NIGHT REPORT.]

SAN JOSE, May 22.—San Francisco won from San José in a hotly-contested game today by a score of 12 to 11, though it was marked by superfine playing. The features of the game were the batting of C. Foley, Berg, H. Kruze and Egan. The ninth inning closed with a tie, and it took two more innings to decide the game. Score: San Francisco, 12; base hits, 15; errors, 7. San José, 11; base hits, 10; errors, 9. Batteries—H. Kruze and Hammond; Berg and Kent.

San José will protest the game on the ground that there was not an official umpire, and that one man (Dunlevy) went on the field without uniform.

## STOCKTON DEFEATED.

[ASSOCIATED PRESS NIGHT REPORT.]

SAN FRANCISCO, May 22.—At Recreation Park today, the Athletics of this city easily defeated the Stockton Whalen struck out one more man than Knell and did not send so many to first on balls, he was very severely batted, though the bats being made, although none of the Athletics sent the ball over the fence near Knell's easy throws. Score: Stockton, 5; base hits, 8; errors, 9. Athletics, 9; base hits, 9; errors, 8. Batteries—Whalen and Peters; Knell and Scott. Umpire—J. O'Connell.

## NATIONAL LEAGUE GAMES.

Orphans Hit Mercer Freely and Beat the Senators.

[ASSOCIATED PRESS NIGHT REPORT.]

CHICAGO, May 22.—The Orphans started after Mercer early today and hit him hard in all but two innings. Dahmen and Lang did too much questioning and were put out of the game. Isbel and Thornton replaced them. Attendance 7800. Score:

Chicago, 10; base hits, 14; errors, 3. Washington, 2; base hits, 7; errors, 6. Batteries—Calahan and Donohue; Mercer, Donovan and McGuire. Umpire—Connolly.

## COLONELS WIN TWICE.

[ASSOCIATED PRESS NIGHT REPORT.]

LOUISVILLE (Ky.), May 22.—Two games were played today, Louisville winning both. Attendance 4500. First game:

Louisville, 2; base hits, 6; errors, 2. Brooklyn, 0; base hits, 1; errors, 1. Batteries—Fraser and Snyder; Dunn and Grimaldi. Second game:

Louisville, 5; base hits, 8; errors, 2. Brooklyn, 2; base hits, 9; errors, 3. Batteries—Ehret and Wilson; Yeager and E. Smith.

Umpires—Cushman and Heyder.

## GIANTS KEPT THE LEAD.

[ASSOCIATED PRESS NIGHT REPORT.]

ST. LOUIS, May 22.—Fully 10,000 people witnessed today's game. It was the first time that the New York team has officiated in a Sunday championship game. Daniels gave the Giants lead in the first half. Score:

Chicago, 10; base hits, 6; errors, 0. Pittsburgh, 6; base hits, 4; errors, 2. Batteries—Hawley and Peitz; Rhines and Schriver.

Accident to a Soldier.

[ASSOCIATED PRESS NIGHT REPORT.]

SACRAMENTO, May 22.—While the train bearing Utah volunteers was on its way to San Francisco this morning, and when approaching Elmira, one of the men, M. H. Ackerman of Ogden, reached his arm from a window to wave a flag. Just then the train swept by and the flag was torn. The pieces were taken by the mail car, and Ackerman's arm struck it and was badly fractured. He was taken off the train at Oakland for treatment.

May Suspend Mayor Van Wyck.

NEW YORK, May 22.—The Press tomorrow will say: "Gov. Black, when he comes to the city, will order the railroads to be requested to suspend Mayor Van Wyck from office if eminent lawyers who have been consulted advise that the Mayor has disregarded the Greater New York charter in his actions regarding the police board."

## GRAND OLD MAN.

Dr. Heber Newton's Eloquent Eulogy of Gladstone.

NEW YORK, May 23.—The Rev. Dr. Heber Newton preached an interesting sermon on the life of Gladstone, at All Souls' Protestant Episcopal Church today. He said, in part:

"It is as a statesman that Mr. Gladstone is known throughout the world, and what is known.

For sixty years he has been in public life, the observed of all observers. This long career in public life has witnessed a growing recognition, not merely of his ability, but of his character, not a political. He had very little aptitude in managing men. His influence over his followers was almost boundless, but it was the influence of his personality, not of his manipulation. Men far inferior surpassed him in ability to impress upon a party his own great ideas and convictions. His power lay in his thoughts.

He began at the beginning, he was absolutely disinterested, peculiarly, in his public life. He was not in politics for money. He was never rich. When he was at one time Prime Minister he declined to come to the cabinet, and was given a place in the outer office.

He was a predecessor in English history in his ability to impress upon a party his own great ideas and convictions. His power lay in his thoughts.

## DEATH OF INDIAN AGENT AT SACATON.

Discovery of Rare Ore in the Dragoon Mountains—Deputy Collector of Internal Revenue Resigns.

## ANNUAL MEETING OF MEDICOS.

## ELECTION OF OFFICERS AND BANQUET—TUCSON BREVITIES.

Prescott Murderer to Hang—Enrolling of Volunteers—Capt. Milton of Nogales Offers the Services of His Picked Men.

PHOENIX (Ariz.) May 20.—[Regular Correspondence] The death of Henry J. Cleveland, the agent of the Pima and Maricopa Indians at Sacaton, has called attention to the fact that in a year's time two of the President's appointees in Arizona have succumbed to the inevitable. The first was Chief Justice Truesdale of the Territorial Supreme Court, who died within a few months after assuming the office. Although comparatively little known in the Territory, his character was already making an impress upon the people. In the death of Mr. Cleveland, Arizona lost a friend indeed—a man who has lived long enough here to become rooted to the soil and form an integral part of the Territory.

Mr. Cleveland was agent for only about a year, but he seems to have started a good work among his Indian wards. He lived on a ranch near the Sacaton Reservation, and was a stranger when he was placed over them. The Indians had confidence in him, and for that matter he had every confidence in the tribe. He called them big "good Indians," and no doubt they justified the name. Mr. Cleveland was good to them, and even the Indians' heart expands under kind words and encouragement. At the same time he was not lax with them, nor did he allow trifling with well-defined rules and laws. As a political worker in Ohio and Arizona, Mr. Cleveland's energy had been written, but there were undoubtedly many who did not share the tenor and spirit of the Sacaton Reservation, who will not be able to use eloquent words, but whose testimony will, nevertheless, live in the ages.

Probate Judge C. W. Crouse announces himself as a candidate for the position of Indian agent in the State of Arizona. Ariz. vice H. J. Cleveland deceased. Mr. Crouse served in the same capacity during the years 1889 to 1893, inclusive, under Harrison's administration. He is thoroughly conversant with the responsibilities of the position, and will prove a strong candidate.

H. G. Pollock, deputy collector of internal revenue, has wired his resignation to Hon. A. L. Morrison, collector, at Santa Fe. N. M., and will leave for Rio Janeiro on or about June 15, to accept appointment as chargé d'affaires in the office of Charles Paige Bryan, Minister to Brazil.

Mr. Pollock is 30 years old and married. He at one time was assistant superintendent of the Chicago post office, and during the World War office, and during the War of 1898, he was detailed in company with Mr. Bryan on the Governor's staff to receive foreign army officers. He has been a resident of Arizona for the past two years.

ANOTHER DISTINGUISHED DEAD. As the telegraph columns have already announced, Phoenix is called on to mourn the demise of ex-Gov. Benjamin J. Franklin, who died very suddenly Thursday from heart disease. Gov. Franklin was born in Denver, the old school days, yet, severe in manner, unbinding but seldom, and placing honor above everything else. He was a strong Cleveland adherent, and in that respect ran counter to much of the public sentiment in Arizona. Those who were intimately acquainted with him testify to his probity and integrity. His funeral today was very largely attended, the Governor and staff and the military accompanying the remains to the place of burial.

PHOENIX IN BRIEF. Judge W. H. Stillwell has received notification of his appointment as army paymaster, with the rank of major.

Articles of incorporation of the Gold King Mining Company were filed in the office of the Territorial Secretary on Tuesday. The principal place of business is Yuma, and the capital stock is \$2,000,000.

Corporation record of W. F. Sheridan to receive money from Gen. Miles for service in the Philippines.

The visiting physicians who attended the medical society meeting at Tucson have returned home, much pleased with the cordiality of their reception and hospitalities displayed by the people.

Thomas Leonard, who says he is the King of England, was committed to the insane asylum Thursday.

J. D. Monahan has cultivated a thrifty patch of shamrock clover at his residence and announced that he is the proud possessor of the only growing shamrock in Arizona.

Dr. Norton returned Thursday from Bisbee, where 7000 head of Mexican cattle are seeking entrance to this country. They will be held south of the line, however.

TUCSON.

TUCSON, May 30.—[Regular Correspondence] Prof. Blake, Territorial geologist, recently discovered "huberite" in the Dragoon Mountains, and has since made a special report of the matter to the Governor. The discovery of huberite in its way, as the deposits of huberite are rather rare, and the ore is in such demand that it will readily at a price ranging from \$60 to \$100 per ton.

The mineral is a combination of tungsten and manganese, with only a little iron oxide in it. It weighs heavily in water. Manufacturers of steel regard new discoveries of the mineral with interest, as it is used in their product.

The new discovery is located about six miles north of Dragoon Summit Station, in Cochise county, on the line between the two mountains. The claim are collecting a quantity of the ore, and will prepare it for shipment, the idea being to determine its value. It is found in pockets with a

thin connecting streak running through a ledge of quartz, and must be worked by special machinery to properly prepare it for shipment.

## ARIZONA MEDICAL ASSOCIATION.

The annual session of the Arizona Medical Association was held in this city Tuesday and Wednesday, concluding with an elegant banquet at the San Xavier Hotel. The programme discussed during the two days was a most instructive one, and the meeting resulted not only in the election of officers of the fellowship, but in adding many new members. This was the first time that the association met in Tucson and the conclusion was amicably reached that the meeting should be held in Phoenix the following year, under the newly-elected officers. President, Dr. W. V. Whitmore of Tucson; first vice-president, Dr. William Wylie of Phoenix; second vice-president, Dr. McInnes of Phoenix; third vice-president, Dr. George W. Maynard of Florence; secretary, Dr. O. P. Platz of Phoenix; treasurer, Dr. L. W. Toney of Bisbee.

## TUCSON BREVITIES.

Hon. S. M. Franklin returned Wednesday from the Wilkes and Allison gold mine, located near the Fresno. He says that gold ore is being extracted from the rich vein which assays over \$600 per ton in gold sorted for shipment.

Manuel Querino was bound over to the court in the sum of \$5000 for cattle rustling.

Thomas Yerkes of Santa Ana, Sonora, Mex., is in the city to meet the Indian claim agent. Mr. Yerkes's claim averages \$50,000.

Inspector Schofield reports that about one thousand head of cattle will be shipped to the market in the near future.

Hay is selling at \$12 per ton on board car here. The price at this season of the year is unprecedented.

J. G. Geronimo is in the city on business.

A troop of forty-five men, belonging to the Third Cavalry, came in from Fort Huachuca Tuesday. Their destination is to patrol the border about one hundred miles west of here, in the Tucson country.

Hon. M. G. Samaniego has so far recovered from his head accident as to be able to walk about the house.

Prof. George W. Maynard of New York is in the city looking after copper prospects.

Hon. C. R. Wores, who has been at Randsburg for the past year, has returned.

## PRESCOTT.

PRESCOTT (Ariz.) May 20.—[Regular Correspondence] Judge C. P. Hicks has received a lot of memorial blanks from the National Maine Monument Committee, on which it is desired to obtain the signature of every school child.

John Eckles, who is charged with robbing the Crowned King stage, will have his preliminary examination next Monday.

Lloyd Griscom, who is interested in two children, I own my own home, having bought and paid for it with what was received from my husband's life insurance. When I want to know is, can I keep the complete control of my property while I live and will it be to my children (so they alone will have it after my death) if I marry again. Will my second husband have any control over my property? If so, what must I do so that I alone can control myself so that I alone can control it?

An ante-nuptial contract, settling forth the property, to be placed upon record, is the best course to pursue.

Subscribers says: I am a widow with two children. I own my own home, having bought and paid for it with what was received from my husband's life insurance. When I want to know is, can I keep the complete control of my property while I live and will it be to my children (so they alone will have it after my death) if I marry again. I have a check signed by a person I know and account in bank. Some days passed before I cashed it. The check and the time I used it. In the mean time the party closed his account in the bank. Can I collect the amount of the check?

The state runs for different periods to different classes of debt. The check can be used as an evidence of the indebtedness, but the original claim must be sued upon, the check not being a negotiable instrument.

"Curiosity" says: An individual has several debts. They have defaulted. He is an executor, as well as a co-heir of an estate which has not been partitioned. Can a collection be effected from his share of such estate by a legal act of enforcement of payment, as well as from other legatees who are satisfied with part of their share of income and may suffer from such a debt?

The legatee's share can be reached without compelling a partition, the remedy being in a court of equity.

B. B. C. makes the following statement: I am one of many debtors of whom die two years ago without making a will, and the others claimed all she left—money in bank, pictures, books, etc. They told me I was not the only heir to have the smallest article belonging to my late mother kept their word. Can I make them render an accounting before the surrogate and claim my share?

Originally you would have been entitled to an equal share, but the time in which you could have enforced your right has expired.

The smelter at Rollins, near Crittenton, will start up again, on orders from new Hawley.

William Jenkins, alias "Buffalo Bill," the well-known Texas ranger, left Clifton Tuesday to "chase" "Bucky" O'Neil's troupe of Arizona cowboys.

Enriquito Peredo and Estevan Rodriguez were arrested in Morenci Tuesday charged with passing counterfeit bills. They were sent to jail at Solomonville to await the action of the grand jury.

## MINE DISASTER.

## Four Men Crushed to Death in an Ore Bank.

## ASSOCIATED PRESS NIGHT REPORT.

ALBUQUERQUE (N. M.) May 22.—The four men crushed to death yesterday in the cave-in at Harrell &amp; Son's copper mine near Mayorga, were Jacob Reinhard, aged 40, having a wife and two children; Oscar Reinhard, his brother, aged 34, having a wife and three children; Morris Dry, single, aged 21; and Charles Edwards, single.

A shaft was sunk near the place where the bodies lay and men have been working in shifts ever since the accident in the effort to reach the bodies.

At 5 o'clock the two last bodies were taken up under a broken mass of timbers. It may require constant work all night to remove the bodies.

## At Camp Alger.

WASHINGTON, May 22.—Thus far the health of the men in camp at or near Camps Churchill and the thousand men have been abnormally good.

Three men of the Sixth Illinois were reported ill today. They are suffering from pneumonia and have been removed to Fort Meyer for treatment.

The Sixth Massachusetts, 930 men, under command of Col. Charles F. Woolford, arrived at Camp Alger about noon. This regiment is excellently equipped.

THE TIMES—  
Weekly Circulation Statement.

STATE OF CALIFORNIA, COUNTY OF  
LOS ANGELES, S.S.  
Presented to the court, before me, Harry  
Chandler, superintendent of circulation for  
the Times-Mirror Company, who, being duly  
sworn deposes and says that the day of the  
last addition to the paper is 6 each day of the  
week ended May 21, 1898, are as follows:

Sunday, May 15. 41,520  
Monday. " 16. 29,220  
Tuesday. " 17. 28,700  
Wednesday. " 18. 28,980  
Thursday. " 19. 28,520  
Friday. " 20. 28,965  
Saturday. " 21. 28,090

Total for the week. 220,495  
Total average for the week. 30,419

[Signed] HARRY CHANDLER.  
Subscribed and sworn to before me this 21st  
day of May, 1898.

SEAL. THOMAS L. CHAPIN,  
Notary Public in and for the County of Los  
Angeles, State of California.

NOTE.—THE TIMES is a seven-day paper.  
The above aggregate, viz., 212,935 copies,  
issued by us during the seven days of the  
past week, would, if apportioned evenly, give a daily aver-  
age of a six-day evening paper, or a daily aver-  
age of circulation for each week-day of 35,459  
copies.

THE TIMES is the only Los Angeles  
paper which has regularly  
published sworn statements of its  
circulation, both gross and net,  
weekly, monthly and yearly, during  
the past several years. Advertisers  
have the right to know the NET  
CIRCULATION of the medium which  
seeks their business, and this THE  
TIMES gives them correctly, from  
time to time; and it furthermore  
guarantees that the circulation of  
THE TIMES regularly exceeds the  
combined circulation of all other  
Los Angeles daily newspapers.

THE TIMES-MIRROR COMPANY.

## WAR BULLETINS.

In order to satisfy the urgent demand of the public for war news all day long, The Times will commence today, May 23, issue at intervals during the day—probably at 11:30, 1:30 and 4:30 o'clock—an extra sheet of four pages, whenever the importance of the news justifies the enterprise. This sheet will contain, on the first page, the freshest war bulletins received especially by wire up to the very hour of starting the presses. On the other pages will be reproduced the latest telegraphic news from the regular issue of the same morning, and the whole sheet will thus contain between 30,000 and 40,000 words of fresh intelligence, most of it relating to the war.

This 4-page sheet will contain no advertisements, and will be sold to the public for ONE CENT PER COPY.

This charge is somewhat higher than, and a little out of proportion to the cost of the full-size regular issue of THE TIMES, which contains from 12 to 16 pages, but the publishers believe the people will not object to the price of these War Bulletins.

## THE WAR SITUATION.

Below are summarized the more important developments of yesterday in the war situation:

The rumored sinking of Spanish ships of Mole St. Nicholas officially denied.

Cruiser San Francisco chased a mysterious vessel.

The Charleston sails from San Francisco for Manila.

Concentration of army supplies at Tampa indicates an early invasion of Cuba.

Sampson and Schley believed to have the Spanish squadron cornered.

Greatest naval battle of modern times thought to be only a question of a few hours.

Fifty artillerymen from the Seventh California ordered to Manila.

Important conference between Premier Sagasta and Señor Castillo.

Proposed Spanish-Franco-Russian alliance to restore the Philippines to Spain.

## AN IRRIGATION POSSIBILITY.

It is encouraging to note that the question of government irrigation of arid lands is beginning to find many advocates throughout the country, and is being generally discussed by the press. Not only are the government lands which need no irrigation rapidly disappearing—that is to say, those upon which it is possible to make self-sustaining homes—but those lands upon which water may be brought at moderate expense are also beginning to become scarce. There remain vast areas of desert land, sufficient to support in comfort millions of people. A large proportion of these lands can be irrigated, but to bring water on them requires the expenditure of great sums of money, and private enterprise is somewhat slow at taking hold of such ventures. Even when private companies do undertake such reformation, the result is too frequently unsatisfactory to the settler who buys lands under the canals.

In Colorado and Wyoming the government has had surveys made for the location of two great storage reservoirs, and the report of the engineers has been approved by the Secretary of War, who urges the construction of these national storage reservoirs to conserve the flood waters for irrigation purposes. This is another important point in connection with the proposed establishment of government irrigation works. They would not only furnish water to the thirsty lands below, but would prevent the disastrous floods, to combat which, levees, costing millions, have been built along the Mississippi.

Congress recently appropriated \$20,000 for the irrigation investigation. It is a small sum, but if judiciously expended, may do good in calling attention to this most important question.

The suggestion that in undertaking such work the Federal government would be overstepping its proper field, is scarcely worthy of consideration. The government certainly has as much right to make the lands which it owns available for settlers, by providing a water supply, as it has to improve rivers and harbors, or build levees.

One of the most forbidding sections

while there are so many millions of dollars to be obtained at low interest on good security, it seems a contradiction that such a region as this, which could support a million people in comfort, should be permitted to remain unimproved and unproductive.

## AID FOR STEERE'S BATTERY.

THE TIMES received the following telegram yesterday:

"THE PRESIDIO (San Francisco), May 22.—Col. H. G. OTIS, THE TIMES, Los Angeles, Cal: Battery D, our battery has been honored with assignment for duty at Manilla with Battery A of San Francisco. The latter has a battery fund of nearly a thousand dollars to provide for the comfort of its men. We have not one penny. Cannot the good citizens of Los Angeles supply us with means with which to purchase what the tropics require? Money is what we want."

"HENRY STEERE, Captain."

Here is a case, plainly stated, for the consideration of the patriotic citizens of Los Angeles, the home of Capt. Steere and his men. What will the response be? May not THE TIMES expect that the sum required will be forthcoming at once—before the sailing of the ship that is to carry our gallant batterymen across the Pacific to their new field of duty? We will receive, acknowledge and securely forward moneys contributed through this office, and have the same properly received. Let the response be prompt and liberal!

Uncle Sam is not twisting the Lion's tail just now, but the way he occasionally gets a twist in the appendage of the Spanish bull is highly satisfactory.

## The Playhouses

ATTRACTIONS TONIGHT. The Orpheum's bill for the week beginning tonight is of unusual promise, comprising Isabel Urquhart and company, in a bright little play; John W. Ransome, the famous impersonator and comedian; the young California violinist, Pietro Serrao, and Badly, a great team of dancers; Renu and Ricardo, comedy gymnasts; Lizzie B. Raymond, in a pot-pourri of new songs; Smith O'Brien, the story teller and singer, and the great horizontal bar acrobats, Tony Wilson and clown.

The Burbank Theater will present the amateur drama, "The White Squadron," with a surpassing scenic embellishment depicting the congress of the navies; the great rock scene; the attack on the silver train, and the funeral march of the hero.

The company is well equipped to give this stirring play a handsome setting, and as the piece is especially timely just at this juncture, a succession of big audiences may be anticipated.

## POLITICS.

H. J. Shoulters and R. D. Wade of this city and Barnes of Pomona were inadvertently mentioned in yesterday's issue of THE TIMES as candidates for the County Assessorship. They are all candidates for the County Recordership.

## Mother of Fitzhugh Lee.

(Chicago Chronicle)—Bland and almost as much as a baby, the mother of Gen. Fitzhugh Lee, lives with her son Daniel, near Fredericksburg, Va. Though nearly 90 years old, she is still bright and cheerful. Surrounded by descendants who fairly idolize her, she is rapidly nearing the grave, and of this struggle will be, "I will tell you." The end will be that I shall be cut to pieces and die, but my principles will be victorious, for they are not mine, but God's. This is the strength of the principles and reformed reformers. He knows, sooner or later, that the trial will triumph, and its victory will assure him deserved recognition. The Catholic church also will observe it with impressive ceremonies. For the church of Rome has long since realized that the world is to be won over to its principles, and the world overthrown.

The young man, who is a Dominican, has long since repented of their cruelty toward one of their most devoted and illustrious citizens, and have given up for them the name of Fitzhugh Lee.

## THE WEATHER YESTERDAY.

U. S. WEATHER BUREAU, Los Angeles, May 22.—[Reported by George E. Franklin, Local Forecast Official.] At 5 o'clock a.m. the barometer registered 30.00; at 5 p.m., 29.91. Thermometer for corresponding hours showed 52 deg. and 68 deg. Relative humidity, 5 a.m., 87 per cent; 5 p.m., 56 per cent. Wind, 5 a.m., southeast, velocity 1 mile; 5 p.m., southwest, velocity 13 miles. Character of weather, clear. Minimum temperature, 70 deg.; maximum temperature, 81 deg. Barometer reduced to sea level.

## WEATHER FORECAST.

SAN FRANCISCO, May 22.—For Southern California: Fair Monday, warmer in northern portion; northerly winds.

## ALL ALONG THE LINE.

A brilliant scheme, evolved by the Red Cross Society of San Francisco is the purchase and equipment of a hospital ship for the Philippines. The whole State ought to chip in liberally to make it a success.

According to the Santa Fe New Mexican, "Teddy's Terrors" do not like the name bestowed upon them by a fond and irreverent public, and have rechristened themselves "Teddy's Brownies." Possibly they realize that the original title would be hard to live up to.

In its editorial columns the Oakland Enquirer prints this good story of a wholesome rebuke administered to that common brand of impertinence which masquerades as principle: "Mrs. McKinley, at a reception of the delegates to the Mothers' Congress in Washington, was greeted by one woman with the imprudent remark: 'I hope you don't use wine on your table, Mrs. McKinley.' The answer was somewhat unexpected. 'I do if I want to,' said the mistress of the White House."

The Oakland Tribune appears to have a gift for whistling to keep up its courage. It remarks cheerfully: "The fall elections are about the only things figured on to make times any way easy in California this year. What with the Klondike rush, the demands of the war and the bad crops there wouldn't be much in sight if the politicians were not due to make the rounds. Somehow or other they always succeed in getting a good deal of the available money into circulation when they are around."

This good advice to the citizens of Sacramento is offered by the Record-Union: "June is drawing near, and the time is fully at hand when something ought to be done in the way of planning for a good old-fashioned celebration of the nation's birthday. A meeting has been called already in Los Angeles for that purpose there, and the sentiment appears to be unanimous that too hearty and rounded a celebration cannot be planned. We at the Capital City should be moving also. It is not a day too early. What we want this year is an old-style celebration, with a generous procession, plenty of hunting about, plenty of salutes and songs, an intelligent reading of the Declaration of Independence, a thoughtful oration, a patriotic, well-measured poem, and general jubilation without bolsterousness, patriotic manifestation without extravagance, and spectacular display without vanity and over-color. By all means let preparation begin early, that we may not have the usual hurry and rush, and crowding with half the things that should be done left undone."

## RACE FOR LIFE.

Exciting Runaway Yesterday Afternoon at Ventura.

A telephone message to The Times from Ventura says Daisy Shaw, the eleven-year-old daughter of Councilman S. L. Shaw of that city, had a miraculous escape from death yesterday afternoon.

It was a race for life from the Santa Clara River to Ventura, a distance of about eight miles, and the little girl escaped after a most exciting chase with only a few bruises, thanks to the heroic action of Charles Diederich of Hueneme.

The little girl had gone for a drive to the new Oxnard beet-sugar factory, with Miss Diederich and Miss Christensen of Ventura. On reaching the Santa Clara River on the return trip, the young ladies got out of the buggy to see the horse. They removed the bridle and were preparing to tether the animal, when it shied at something and started on a dead run for Ventura.

Little Miss Shaw was still in the buggy. She clung to the seat rods and called to the horse to stop, but the affrighted animal only ran the harder. A boy on a buckboard, speedily unbridled and dashed through the village of Montalvo with the terrified child still clinging to the seat and crying for help. A dozen horsemen and teams were soon in pursuit, but could not overtake the runaway.

The young men took to the water, at a giddy rate, and pursued the horse and started in pursuit. Their horses were fresh and gained on the runaway. After an exciting run they got so near the object of their chase that Diederich managed to jump from his buggy into the rear of the buggy in which the little girl was holding on for dear life.

Crushing down the top of the buggy and clambering over it, Diederich soon had the child in his arms. As there was no bridle to the horse, he could not rein in the frightened animal. Eventually there was danger that the buggy would be dashed to pieces and the occupants killed. There seemed but one chance of escape; that was to jump.

Gathering the child closer in his arms, Diederich threw him out. He held the child to the ground, the little girl with him. She was bruised about the face and knees, but he escaped unhurt.

The runaway horse continued his flight to the river and did not stop till he reached his stable. The buggy was a bad wreck, and the horse was so crippled as to be unfit for future use.

## IN THE OIL FIELD.

THE FAILURE TO CREATE A NEW ASSOCIATION.

Another Break in Prices Looked for—Trustees Increasing Their Storage—Contract with the Southern Pacific—Standard in the Field.

The efforts to create a new oil-producers' association have failed. E. North, one of the prominent producers in the Los Angeles field, and who has worked hard to effect a new organization, when spoken to on the subject, said the failure was due to the antagonistic action of the representative of one of the large independent companies, who refused to be tied in, by any agreement that he could not break when it pleased him to do so. This refusal influenced other producers, with the result that the quantity of production necessary to insure the success of the organization could not be obtained.

It was necessary to have not less than 2000 barrels of daily production signed up. With that quantity, acting in union with the oil-producers' trustees, who represent at the present time about 1000 barrels of production a day, the two organizations would have been in control of the production. There are many expressions of regret among producers that the oil-producers' association was not formed, but the expressions have a weak and hollow sound, for had they given voice to their regrets been one-half as energetic in their action to effect an organization as they were loud in their mouthings, results would have been accomplished, and been productive of beneficial results to the oil industry of this field, and of other fields Southern California.

Secretary Strasburg of the oil-producers' association, speaking in the name of that association, said he was sorry the independent producers had failed to see the wisdom of getting themselves together as an organized body, and expressed a belief that the failure to do so will quickly be remedied by the break between that would probably send oil down to 40 cents a barrel, and even lower. "In fact," he said, "the present situation of the oil industry may be characterized as a deplorable state."

Several independent producers who were desirous of effecting a new organization took even a more gloomy view of the situation, saying that in view of the quantity above ground added to a production that was holding up well, and the absence of any agreement between the two organizations, the market, prices would go as low as they ever had been in the darkest days, and that 30-cent oil was by no means a remote probability.

When asked at the office of the trustees how the meeting of the oil-producers' association was set for the April 22, Secretary Strasburg answered: "They were well satisfied." He explained that producers, members of the trust, in receiving 59.3 cents a barrel, net, for the April sales, had received 5.5 cents for interest, so that the net market, prices would go as low as they ever had been in the darkest days, and that 30-cent oil was by no means a remote probability.

## PASADENA.

### FUNERAL OF THE LATE DR. J. B. TALCOTT.

**Death of Owen C. Post**—The fortnightly Sacred Concert at the Universalist Church—News Notes and Brevities.

**PASADENA.** May 22.—(Regular Correspondence.) Funeral services over the remains of Dr. J. B. Talcott were held at the family residence, 150 South Orange Grove Avenue this afternoon, at a very large and elegant service. The Rev. Dr. Clark, of the First Congregational Church, officiated, and spoke in very high terms of the deceased. The floral offerings were exceedingly numerous and choice, and were of a number of set pieces. The pall bearers were H. C. Murch, H. B. Sherman, G. W. Stimson, R. McCallie, E. H. May and F. C. Bolt. The interment was in Rosedale Cemetery.

The last sad rites over the remains of Joseph W. Lippincott, who died in Los Angeles on Friday night, were held this afternoon, the Rev. Allen Hastings officiating, and the funeral service being held in Alhambra. The services were interred at Mountain View Cemetery.

**Rev. C. M. Crall** of Los Angeles officiated at the funeral of Melinda Binkley, which was held from Lippincott's chapel this afternoon. The service was interred at Mountain View Cemetery.

The funeral of James Ayers, who died on Thursday night, were held from the parlors of R. C. and Van Nuyts this afternoon, and the interment was in Mountain View Cemetery.

**TWO DEATHS.**

Owen C. Post, who was a resident of this city for the past five years, died today at his home on Arcadia Street. He was 45 years of age, and quite well known. The cause of death has not yet been set.

Emily Gertner, infant daughter of Mr. and Mrs. E. R. Gertner, died this morning. The funeral will take place from the residence, No. 325 South Madison Avenue, tomorrow (Friday) at 2 p.m. The interment will be private.

**FORNIGHTLY SACRED CONCERT.**

The fortnightly sacred concert held in the Universalist Church this afternoon served to crowd the edifice. The regular choir was assisted by Miss Alice Eaton, contralto. The program was as follows:

Organ prelude.

Invocation and response.

Quartette, "He Shall Come Down Like a Thunder."

Contralto solo, "The Better Land" (Cowen).

Bartolo solo, "For the Mountains Shall Depart" (Handel).

Quartette, "Never My God to Thee" (Schnecker).

Contralto solo, "Forever With the Lord" (Gounod).

Hymn and benediction.

Postlude.

**PASADENA BREVITIES.**

In but few of the churches was the request of the collection of clippings for Dr. Co. I read. All persons desired to help furnish the boys with some comforts on their trip to the Philippines are requested to lend their contributions to the treasurer of the committee, F. M. Green, at the First National Bank, before Wednesday noon, as is intended to send the amount that afternoon.

The services in the First Congregational Church this evening, under the auspices of the Men's Sunday Evening Club, were largely attended, the organ and musical character, Miss Ballinger and Miss Nutt assisting the regular choir.

One of the Alameda cars met with an accident about 1 o'clock this afternoon on Fair Oaks Avenue, near Union Station. A hinge broke from one of the wheels, necessitating the running north of the cars on that side of the road.

Measles have been prevalent having returned from San Francisco, the prospects are that there will be a quorum of the Board of Trustees present at the meeting tomorrow afternoon. The franchise question may be settled.

The conductors and motormen of the Pasadena and Los Angeles Electric road today donned their full headgear which consists of a white duck cap with a duplicate covers. They are very neat and light.

Having accepted the invitation to act as escort for John George Post, G.A.R., on Monday day there will be a meeting at the American Club a fortnight ago, have returned to Pasadena, having failed to pass the examination.

The Pasadena sharpshooters will meet tomorrow evening in the Recorder's courtroom.

**SOLDIERS' HOME.**

**Memorial Day to be Observed on Sunday Next.**

**SOLDIERS' HOME** May 21.—(Regular Correspondence.) Memorial day observances will take place at the home on Sunday the 29th inst., in order that home organizations may take part in the exercises at Santa Monica on that day. Arrangements are not yet completed. Capt. Charles P. Pratt, A.A. commissary of the home, who has been appointed marshal for the occasion, states that there is every reason to believe the exercises will be very successful. Marshal Pratt extends an invitation to participate with the home veterans in the celebration to the Woman's Relief Corps, Sons of Veterans, and other organizations, and to the citizens of Los Angeles and vicinity generally, and requests that they send notice of acceptance at once. Capt. J. G. Vawter, Jr., Capt. E. C. Pratt, Jr., of the A.A. will participate with the veterans in the ceremonies on Sunday, and afterward join with them at lunch at the home. The Memorial Day observances will be preceded by a contribution of flowers from Capt. F. Edward Gray of the Inglewood floral company.

Memorial services tomorrow will be attended by J. A. Martin Post, G.A.R., in Assembly Hall at 8 a.m., and by Uncle Sam Post, U.S.A., and others, at 10 a.m., on the same day.

The rain last Sunday made the expected parade and review of the First Battalion, Veterans' Home, impossible; it had therefore been rescheduled for Tuesday next at 8:30 a.m. The camp presents a thoroughly military appearance. On almost every road and street the soldiers, the companies and squads going through the evolutions with all the ardor and earnestness that characterized the days of '61. There has been a large amount of money expended, due to the frequency of drills, but those that remain give real attention to the work, firmly believing that another call from the President will result in the same instance.

Col. E. F. Brown, inspector-general, N. H.D.V.S., whose illness has for several months interrupted his work, has so far recovered that he is able to continue his inspection tour, and left on Thursday for Yonville, Cal. After inspecting the home at that place he will proceed East. E. B. Wheeler, Gov. Smith's private secretary, accompanied Col. Brown as far as Yonville.

Recent changes in the home are as follows: A. D. Goff, engineer, has been promoted to captain of home, Capt. F. vice D'Arcy, resigned. E. H. Higgins, promoted from quartermaster's clerk to hospital steward vice captain, promoted to captain. M. G. Goff, promoted to quartermaster's clerk vice Higgins, promoted. Jacob Blattner, appointed to the post of quartermaster's clerk vice Clark, promoted.

The editor of the Washington Star] The editor of the human-interest department looked up warily from his work as he heard a footfall on his threshold, and his gaze fell upon a visitor who bore the unmistakable evidence of what the editor so greatly feared. The visitor, who had been plunged into a sea of editorship which he thought could not have been possible, yet they continued to flow in upon him, and he was slowly but surely realizing the horrors of war.

"Good morning, sir," said the solemn-faced visitor, in such profoundly sorrowful tones that the editor was sure of his name.

"Morning," responded the editor.

The visitor coughed nervously, dragged a small boy out of the shadow behind him, shuffled a foot or two, hesitated a moment, and spoke:

"No, sir," snapped the editor, "we don't and, by Jove, I should think that by this time you would know better than to try to shove an old chestnut like that in a civilization community. Why, we say that in the bad old days letters as long as your hair, the morning after the scrap, and a thousand imitators have followed our example. And not only that, sir, but we don't want anything about 'Dewey,' 'eyes,' nor 'Do-he'?" "Don't-he?" "I didn't he dewey up broadside on Dew-Dew. Hush-herry-Dewy" nor "Yankee Dewy" nor "Give the Spaniard his Dewy" nor "We knew our Dewey," nor "Dewy."

The visitor coughed again nervously, and slid up close to the desk.

"Poor old pony man," he said, and the boy looked sorry.

"What the—" began the editor.

"Excuse me," interrupted the visitor, as the exasperated editor was about to say what Dewey gave the Spaniards at Manila. I think you do me a mistake. I was going to say, do we?"

"I don't say don't say it," exclaimed the editor.

But the visitor would not listen.

"Do we," he persisted, "do we go to the floor above or the below to pay our subscription?" and the editor fell helpless across his desk, laughing helplessly.

**Facts About the Philippines.**

[The Oregonian:] Among reports from the Consuls of the United States, published in the Oregonian, F. W. Williams, Consul at the Philippines Islands, much matter of interest is presented. The population of the Islands is estimated at from 8,000,000 to 10,000,000. The Island of Luzon, on which is the city of Manila, is larger than New York and Manhattan combined, and has a population of 5,000,000, while Mindanao is nearly as large. The States of Maine, Connecticut, Vermont, Massachusetts, New Hampshire, Rhode Island, New York, New Jersey, Maryland and Delaware all combined have a smaller area than the Philippine group. The exports from the Philippines to the United States averaged at the outbreak of the war about \$1,000,000,000. Only about 1 per cent. of the imports came from Spain. There are about two and a half thousand Europeans resident in the Islands. English, Spanish and German houses are engaged in trade, advancing money to the natives for their crops. Such large investments in tobacco and sugar, but the profits are immense. The land is fertile and productive, and lacks only intelligent cultivation.

Abaia (Manila hemp) is one of the chief sources of wealth of the country. Sugar cane does not give as satisfactory returns, owing largely to the ignorance of planters. The average production is 178,000,000 kilograms (175,186.36 tons), while that of Cuba is equal to 122,000,000 kilograms. The sugar goes almost entirely to Japan, England and the United States. It is of poor quality, and very cheap. The cultivation of tobacco is one of the most important industries, although it is capable of much greater development. The native coffee, although not equal to the mocha or bourbon varieties, has a fine aroma. It goes chiefly to Spain. Cocao grows in abundance, and the oil is used for lighting houses and streets. The indigo is famous for its superior qualities. The inhabitants are apathetic to a degree that is noticeable even in these countries, where every one is averse to exertion. There is a railroad 123 miles in length between Manila and Dagupan, substantially built under English supervision. English engines are used, and a speed of forty-five miles an hour is made by passenger trains. The government guaranteed 8 per cent. per year on the stock for a period of ninety-nine years. At the end of that time the road is to become state property. The road has netted the stockholders more than 10 per cent. There was a monthly steamship service between Liverpool and Manila, and four lines of steamers to Hong Kong.

Adolph Vogler, editor of the Western Star, has returned to Los Angeles. "It cannot be made too emphatic that the ordinary water filter of whatever pattern does not exclude disease germs; it clarifies the water of gross impurities, thus rendering it pleasing to the eye, that is to say, it removes dirt and clay are not needed to cleanse a water filter. It is the unseen microbe of the pathological variety that may swarm from any source in water as clear as a diamond, that do the mischief. There are in the market certain expensive micro-bac filters, but these may prove a delusion and a snare, for even a filter of such kind eventually will prove a hotbed for the multiplication of microbes if not sufficiently often renovated."
